Comments:

3/7/2001 - Reclamation work on the Drum Mine is nearly complete. As part of the settlement agreement, DOGM agreed to pay the costs for the lab analyses of rock samples put through a meteoric water mobility test to determine the presence & mobility of heavy metals in the mine dumps & heap leaches. BLM also helped with this expense (\$24,000). This along with attorney fees to help with the bankruptcy filing of the Jumbo bond, \$15,000 more was expended. This \$15,000 was paid from the Minerals Program funds in order to balance the books on reclamation of this site.

3/5/2001 - Received letter from DWQ stating reclamation activities have been completed at the Drum and the major water quality issues addressed. DWQ has no objection of releasing Western States bond.
